RE: NPDES Construction General Permit Tracking No. TNR121254
BT and R Farms
Martin, Weakley County, Tennessee

Dear Mr. Lister:

The Division of Water Pollution Control (the division) acknowledges receipt of the Notice of Intent (NOI) form on October 29, 2010. The NOI was submitted to obtain coverage under a General NPDES Permit for Storm Water Discharges Associated with Construction Activity. Enclosed is the Notice of Coverage (NOC) form which shows the site name and location, receiving stream, effective date of coverage, and responsible operators. The NOC under the Tennessee Storm Water Multi-Sector General Permit for Industrial Activities (TMSP) authorizes storm water discharges associated with construction activity from the above referenced site. Compliance with terms and conditions of the Construction SW GP will be deemed compliance with the TMSP.

Contractor Information

The division does not normally transmit a copy of this letter to your contractor(s). You should make sure that all contractors listed on the NOI are aware of the General Permit requirements.

Storm Water Pollution Prevention Plan (SWPPP)

The division acknowledges receipt of your SWPPP as fulfillment of the SWPPP submittal requirement for this construction site. Please note that the division has not performed an engineering review of the SWPPP and does not certify whether the SWPPP adequately provides for the pollution prevention requirements at the site as described in the General Permit. The division acknowledges that you have submitted a SWPPP that appears to include the required components of a SWPPP. It is the responsibility of all site operators to design, implement, and maintain measures that are sufficient to prevent pollution at the referenced site, and to remain in compliance with the terms and conditions of the General Permit.

Mr. Mark Lister, BT and R Farms NOC
